

Buzz Connect full charges and international call rates

There have been some significant changes to the way calls to 08xx non geographic services are to be charged. In essence the cost of calling each specific 08 tariff will be the same for all service providers, the only variable is the Network Access Charge levied by individual companies. In our case we will be charging 3p +vat on top of the flat rate relevant to each 08 tariff other than 0800, 0808 and 0500 freephone services which remain free to call.

Please see an extract from our latest Basic Rate outbound dialling tariff and also note that there are some other changes to international rates.

All prices are in pence per minute	(exc VAT)
